

Virtual E-CAD

Engineer

Leplan
AUTOMATIONMADE EASY

At **LePlan**, our mission is to empower engineers, designers, and project managers with cutting-edge technology. We simplify the complex design and documentation process of any electrical electronic and IoT project. We're dedicated to driving innovation and efficiency in the Industrial and Marine Industry.

92%

Reduced E-cad project design time

78%

Cost reduction

- Revolutionizing maritime project design
- Efficiency unleashed

Offers

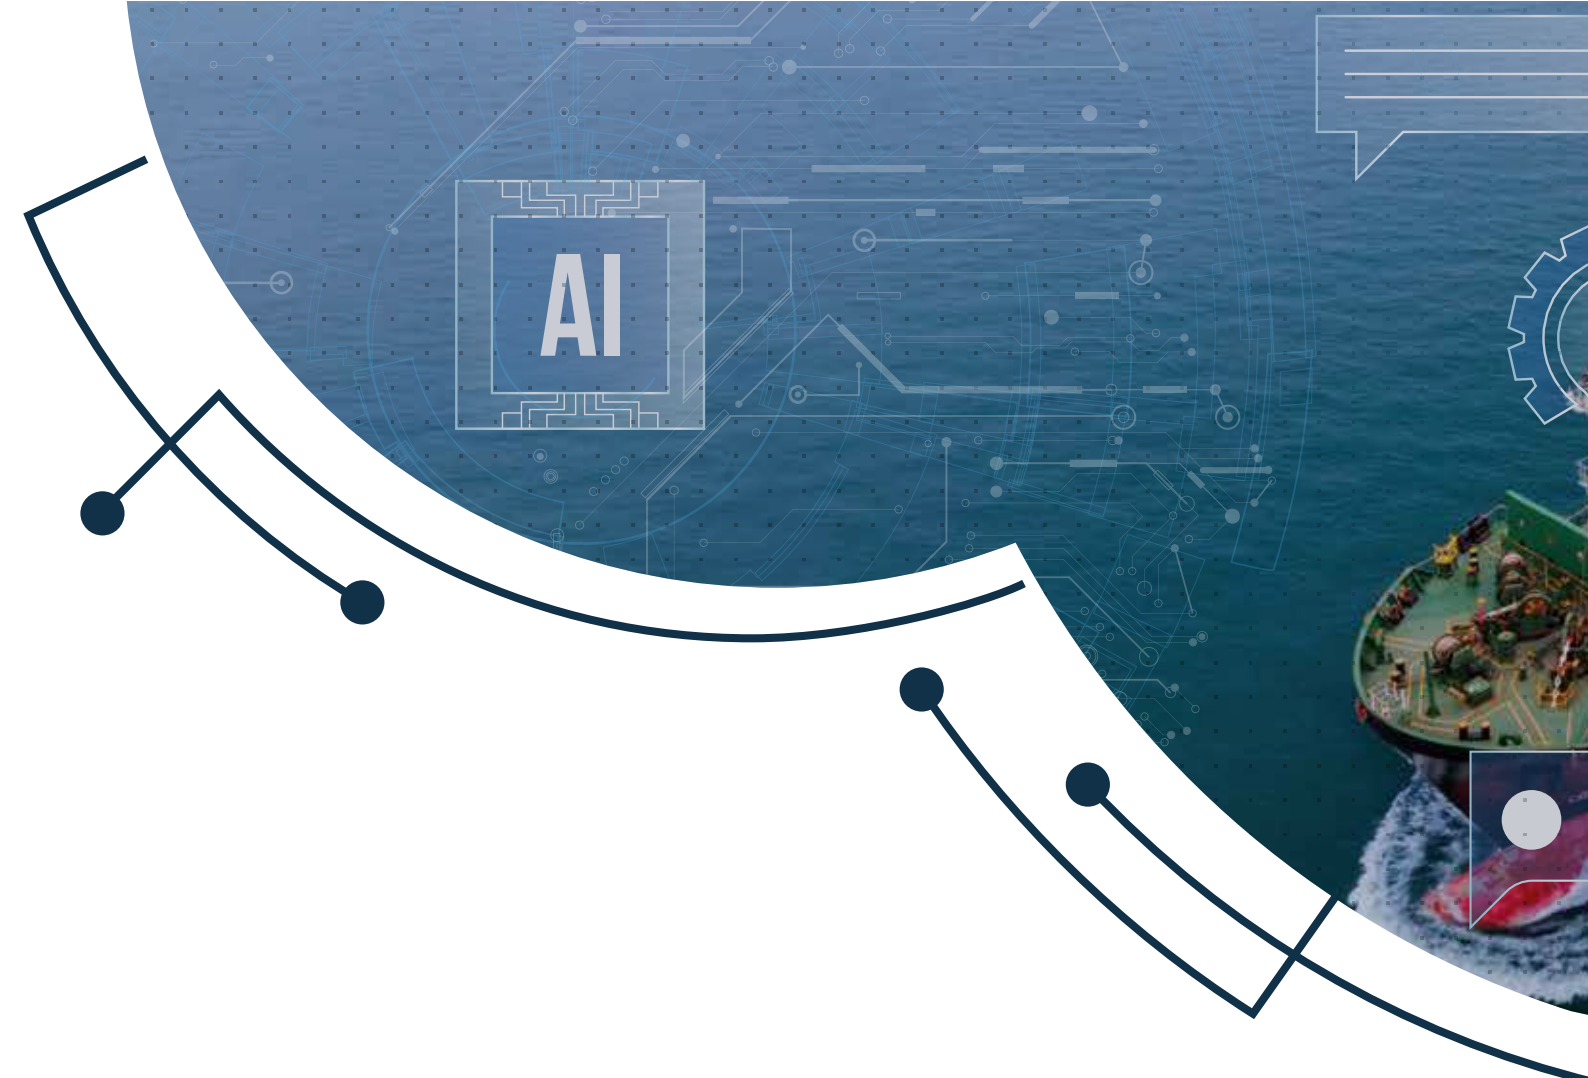

- Unified & Detailed Documentation
- Instant Engineering Study Using AI
- Production & Commission E-CAD drawings
- Autonomous Design Without Human Intervention
- Bill of Materials
- BUS/System Overview
- Electrical Cabinets' 2D Views
- Detailed Electrical Diagrams

What makes **LePlan's** Virtual Engineer Unique

Why

- ✔ Streamlined Design Process
- ✔ AI-Driven Design
- ✔ Zero Human Intervention
- ✔ Minimised Pre-Planning, Budgeting & Design Costs
- ✔ Consistent Quality of Deliverables
- ✔ Accelerated Project Timelines
- ✔ Tailor Made Solution

*Revolutionize the way electrical,
electronic & IoT projects are designed,
budgeted, documented, and managed
with **LePlan**.*
