

Revive Your Critical Electronics Expert PCB Repair & Restoration

Precision Diagnostics & Component-level Repair for Industrial, Marine & Automation Electronics.

At CMA we specialize in advanced PCB repair and electronic board restoration, helping organizations recover mission-critical equipment quickly & cost-effectively.

Why you choose us?

Our experienced engineers combine state-of-the-art diagnostic tools, micro-soldering techniques, and deep electronics expertise to restore damaged or malfunctioning circuit boards across a wide range of applications.

Key Services

- ✓ Component-level PCB diagnostics and repair
- ✓ Industrial automation boards restoration
- ✓ Marine electronics repair solutions
- ✓ Power supply and control board repair
- ✓ Preventive inspection & failure analysis
- ✓ Functional testing & quality verification

**Restore performance.
Extend equipment life.**
