is our
BUSINESS

Sister company D. ARGOUEDELIS
& CO LTD, based in Nicosia,
Cyprus

Pioneering the future of marine
technology

Building design, premium
residences & industrial projects

Integrated Design, Construction,
Development and Promotion
services for website and e-Shop

Key Highlights

- ✓ **Industry Leadership:** Over 40 years in **Marine, Industrial, and Energy Automation.**
- ✓ **Global Reach:** Products & services delivered internationally.
- ✓ **Growth & Innovation:** Driven by a commitment to progress and market prominence.

History & Expansion

- ✓ Began with **repairs and construction** in Greek shipyards.
- ✓ Expanded internationally, building a **global reputation.**
- ✓ Success attributed to **professional, dedicated workforce.**

Service Scope

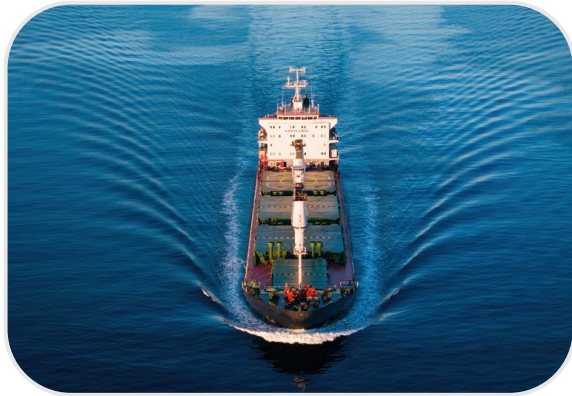

Comprehensive solutions across:

Design, Manufacture,
Installation, Service,
Maintenance

Electrical, Electronic,
Pneumatic, Hydraulic,
Automation systems

MARINE

Being among the most experienced companies worldwide in marine automation, we are offering superior quality services with excellent results.

INDUSTRY

Following the new era of Industry 4.0, we are offering total solutions in industrial automation, by increasing flexibility and improvement of the manufacturing processes' quality and significantly reducing task margins of error.

ENERGY

We develop and implement solutions that are technically, economically and ecologically optimal! From Green ports, renewables, smart building to infrastructure, we can make the difference for your project!

1

Innovative Solutions

Delivering advanced automation and control solutions in **maritime** and **industrial sectors**. Focused on **innovation** to enhance **operational efficiency** and meet client needs.

2

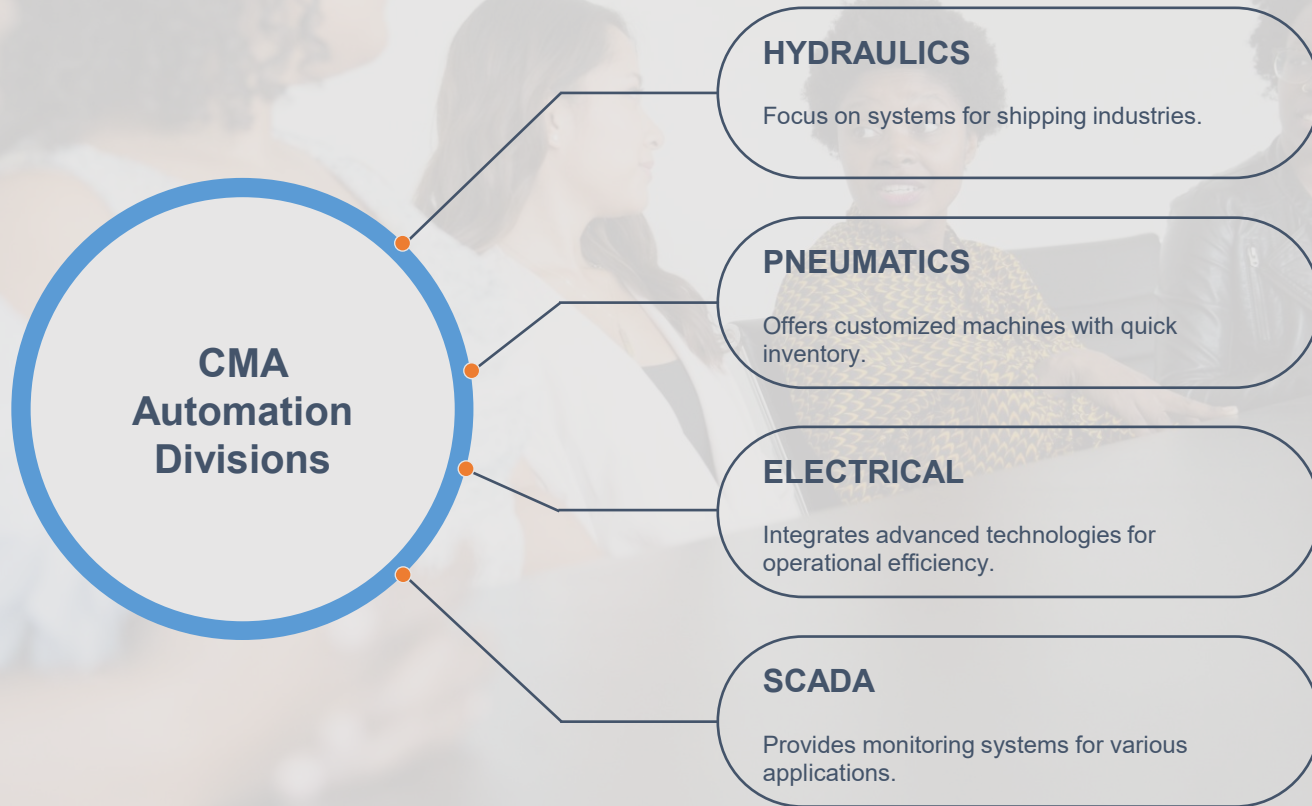

Skilled Workforce

Highly skilled **engineers** and **technicians** ensure excellence in every project, providing **reliable support** and maintaining **high standards**.

3

Global Reach

Extensive **international network** serving clients worldwide, delivering **top-tier solutions** and **timely support** across multiple continents.

ENGINEERED SUCCESS

Our solutions are strategically designed to drive results, optimize performance & create measurable value for our clients. From meticulous planning to seamless execution, every engagement reflects our precision, professionalism & dedication to exceeding expectations. At CMA, success isn't just delivered, it's engineered.

1

Global Standards

Complying with ISO 9001:2015 for quality management systems.

2

Environmental Focus

Achieving ISO 14001:2015 for effective environmental management.

3

Business Continuity

Obtaining ISO 22301:2019 to ensure operational resilience and continuity.

4

Information Security

Securing ISO 27001:2023 for safeguarding client data and information.

5

Occupational health & safety management system

Achieving ISO 45001:2018 for Design, Manufacture, Installation, Service, Maintenance, Commerce, Trade and Sale of Electrical, Electronic, Pneumatic, Hydraulic, Automation Parts, Panels and Systems in Marine, Industrial and Energy Market.

6

Employee Training

Ongoing training programs to build a knowledgeable and skilled workforce.

7

Client Feedback

Implementing feedback mechanisms for continuous improvement in service delivery.

8

Innovative Solutions

Investing in R&D to develop cutting-edge technologies and products.

ISO 9001
ISO 14001
ISO 45001

1

Innovative Products

Launch of CEP12 Electropneumatic Controller for diverse applications.

2

Focused Training

Regular seminars conducted for skill development in automation technologies.

3

R&D Division

Establishment of a dedicated team for advancing automation technologies.

AUTOMATION IS OUR BUSINESS

4

Market Research

Ongoing analysis of industry trends to innovate tailored solutions.

5

Collaboration Programs

Partnership with global associations for knowledge and technology exchange.

6

Employee Engagement

Encouragement of innovative ideas through a strong workforce involvement.

WHY CHOOSE CMA TRAINING CENTER

- Practical marine engineering focus
- Training based on real equipment and systems
- Experienced technical instructors

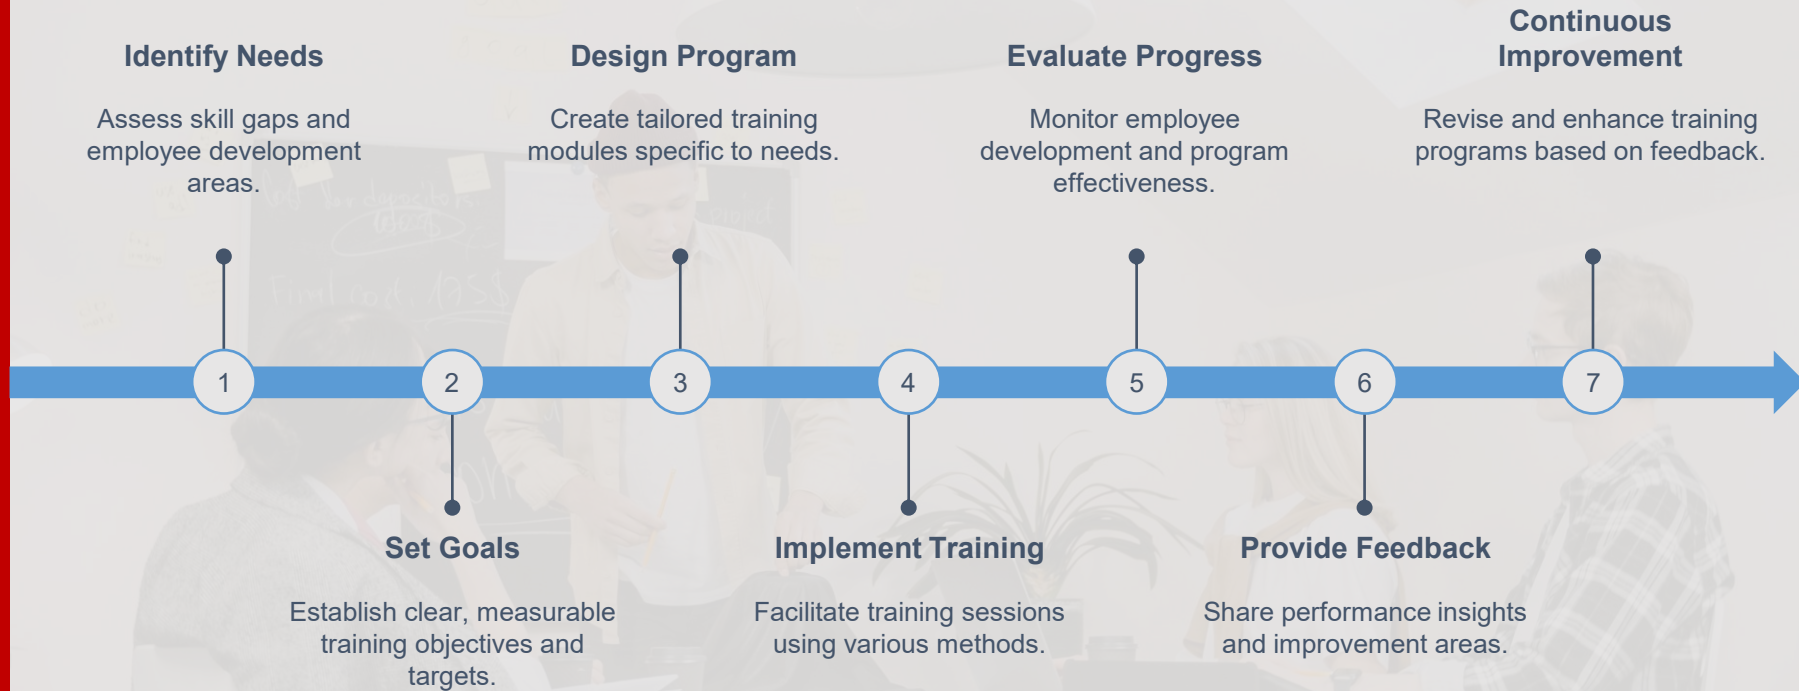

TRAINING METHODOLOGY

- Classroom theoretical instruction
- Real component demonstrations
- Practical troubleshooting exercises
- System simulation training

Employee Development and Training Programs

13

1

R&D Investments

Increased funding in research and development to enhance automation solutions.

2

New Products

Launch of innovative products like the CEP12 Electropneumatic Controller for diverse applications.

3

Advanced Systems

Integration of cutting-edge electrical, pneumatic, and hydraulic systems for improved performance.

4

Global Compliance

Achieved ISO certifications ensuring adherence to international quality standards.

5

Skilled Workforce

Regular training programs for employees, ensuring expertise in the latest technologies.

6

Industry Engagement

Active participation in global associations to stay updated with technological advances.

7

Customized Solutions

Tailored automation solutions designed to meet specific client requirements in various sectors.

Nikolaos Argoudelis
CO-OWNER/CEO

“ We believe in the Human factor,
and we invest to our people
so we can grow together ”

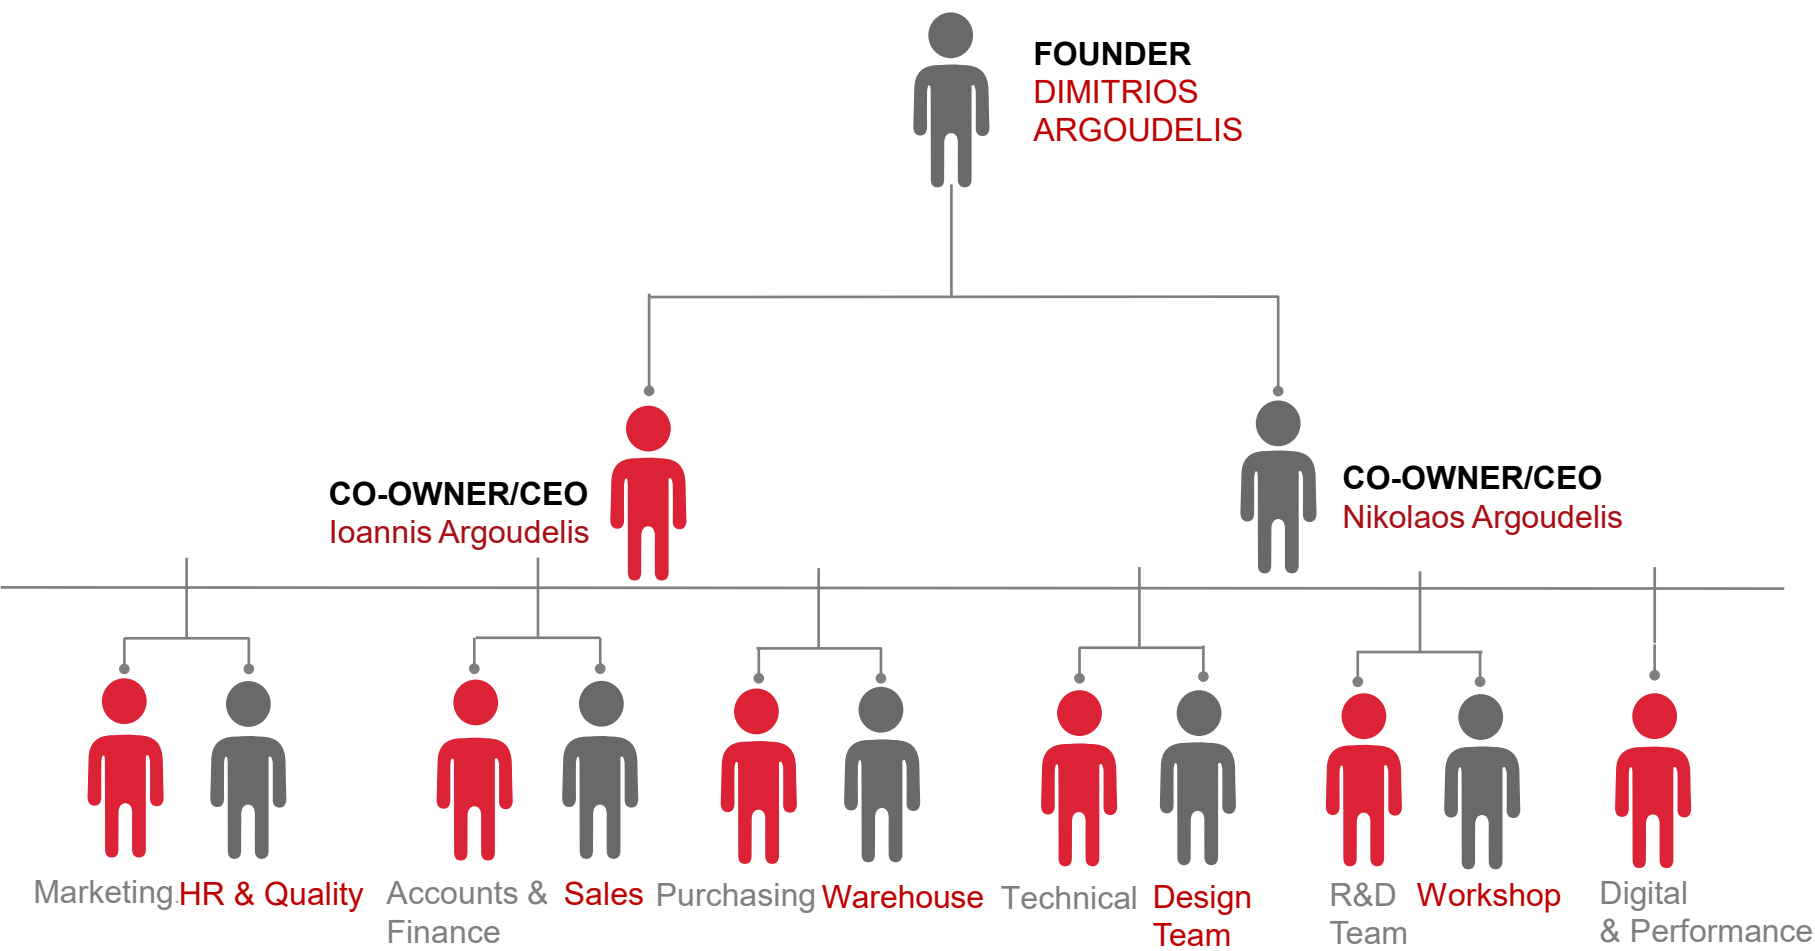

We invest in quality and deep research in order to understand our customer's mindset and needs. Adding to the above, we have the experience to offer complete solutions to our clients. **CMA** is a company which has accomplished a total business maturation and has a steady ground.

Our historical timeline

Organizational chart

Our vision & mission

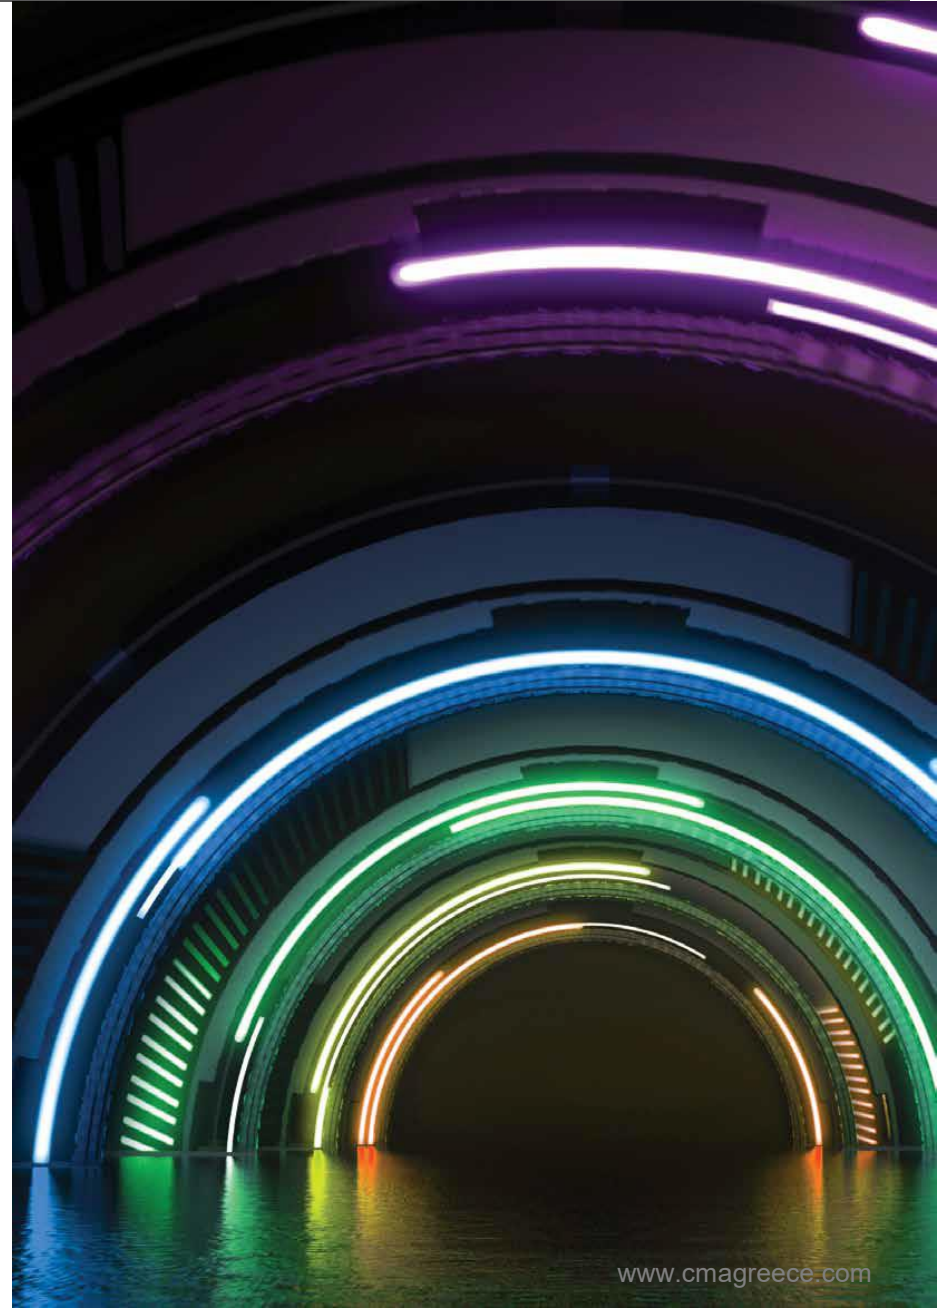

Vision

CMA will continue to grow with your contribution, as the market is very demanding and very competitive. The future in marine, industrial & energy market is the path that lead us to evolution. According to this we will follow and keep our quality in the highest levels.

Mission

Emphasizes the human factor in its mission, CMA blending new technologies and innovation to foster a culture that values creativity and expertise. This approach ensures continual advancements in automation solutions that not only meet industry standards but also enhance employee engagement and client satisfaction.
